Modern Shade Trees for Modern Homes

SUMMIT ASH—New!

60 ft. This new tree is an improved form of the regular Green Ash. One of the straightest growers we have. The Summit Ash makes a somewhat narrow, upright tree. Handsome and clean—especially nice for boulevard plantings. **6-8 ft., \$3.95**

BIRCH, CUT-LEAF WEEPING

A graceful, weeping form of the ever popular White Birch. **8-10 ft., \$7.35; 5-6 ft., \$4.45**

BIRCH, WHITE

Seemingly everyone loves a White Birch. The white bark and graceful growth probably accounts for this being one of the most popular lawn trees. **6-8 ft., \$4.50; 5-6 ft., \$3.50**

BIRCH CLUMPS

Same as White Birch except they have 3 to 5 trunks. **5-6 ft., \$6.95**

ELM, GRAFTED AMERICAN

A grafted form of the regular American Elm. It is distinguished by its symmetrical form and rich foliage. **8-10 ft., \$5.95**

The Amazing LOCUSTS

The fastest selling shade tree today seems to be selected, sterile strains of the Thornless Honey Locust. Many years ago, the Thornless Honey Locust was widely planted because it is fast growing, drought resistant, fragrant when in bloom, and hardy. However, the unsightly black seed pods finally caused the Locust to fall out of favor. BUT, a few years ago the MORAINE LOCUST, a sterile form which blooms, but does not produce seed pods, was introduced and suddenly the Honey Locust became extremely popular. So many new homes have no trees at all. By planting one of our Locusts you'll get shade QUICKLY—and you'll still have a nice lawn, for it's easy to grow grass under a Locust and a Locust will grow most any place. The leaves turn a brilliant yellow in the fall. By all odds, a Locust is best where speed of growth is wanted.

MORAINE

A spreading type. Best used as lawn trees. **5-6 ft. whips, \$5.00**

SHADEMASTER

Also a spreading type, but is the straightest grower of the Locust family. **6-7 ft. br., \$8.50; 5-6 ft. whips, \$5.00**

SKYLINE

Upright grower, nearly as straight as Shademaster. Excellent for boulevard planting. **6-8 ft., \$9.50**

SUNBURST

One of the most colorful trees we have. New growth is a golden yellow. Very striking. **6-7 ft., \$6.95; 5-6 ft. whips, \$5.65**

MAPLE, CRIMSON KING

Leaves come out in spring a brilliant flaming crimson. During the summer they deepen to a rich maroon. Leaves never show any green. **5-6 ft. whips, \$4.95; 2 for \$9.65**

MAPLE, SCHWEDLER

Same spring color as Crimson King; however, leaves turn a bronzy green in summer. Hardier than Crimson King. Valued as an ornamental specimen. **6-8 ft., \$6.75; 6-7 ft. whips, \$4.35**

MAPLE, HARD

This colorful tree is one of the best liked ornamental trees. **6-8 ft., \$5.95**

MAPLE, HARLEQUIN

A very ornamental form of Norway Maple. The green leaves are edged in creamy white. Unusual and very striking. **7-8 ft., \$5.25; 7-8 ft. whips, \$4.50**

MAPLE, SOFT

Not as good a tree as the Locusts, but where speed is wanted, the Soft Maple is still well liked. **8-10 ft., \$3.95**

MOUNTAIN ASH

An attractive ornamental and small shade tree, especially in late summer and fall when covered with clusters of orange-red berries. **6-8 ft., \$5.00**

POPLAR, BOLLEANA

A fast growing tree with the upright, Lombardy Poplar type growth. Leaves are glossy green on top, and silvery white beneath. Valuable for screen planting. **6-8 ft., \$2.50; 5-6 ft., \$2.00**

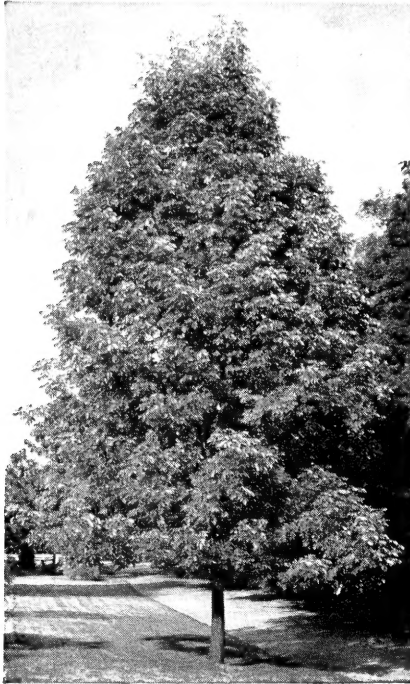

POPLAR, LOMBARDY

Fast growing, upright tree. Used widely for screens, etc. **6-8 ft., \$1.35; 5-6 ft., 95c**

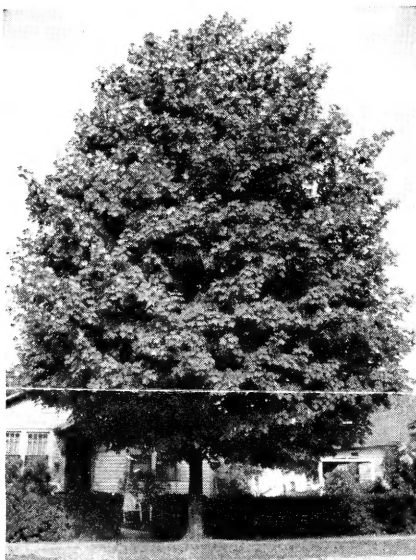

WILLOW, NIOBE

This fast growing tree is the best and hardiest of the Weeping Willows. Don't plant too close to house. **6-8 ft., \$2.95**

Shademaster Locust

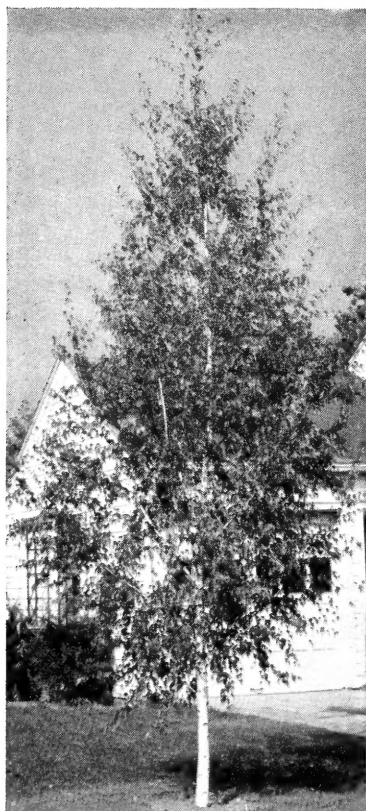

Summit Ash

Norway Maple

White Birch

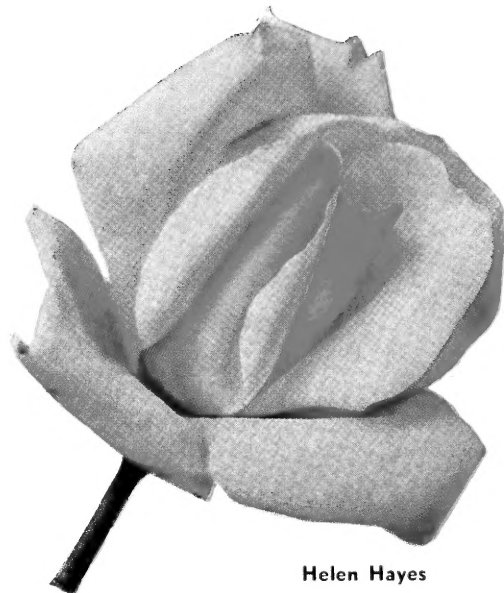

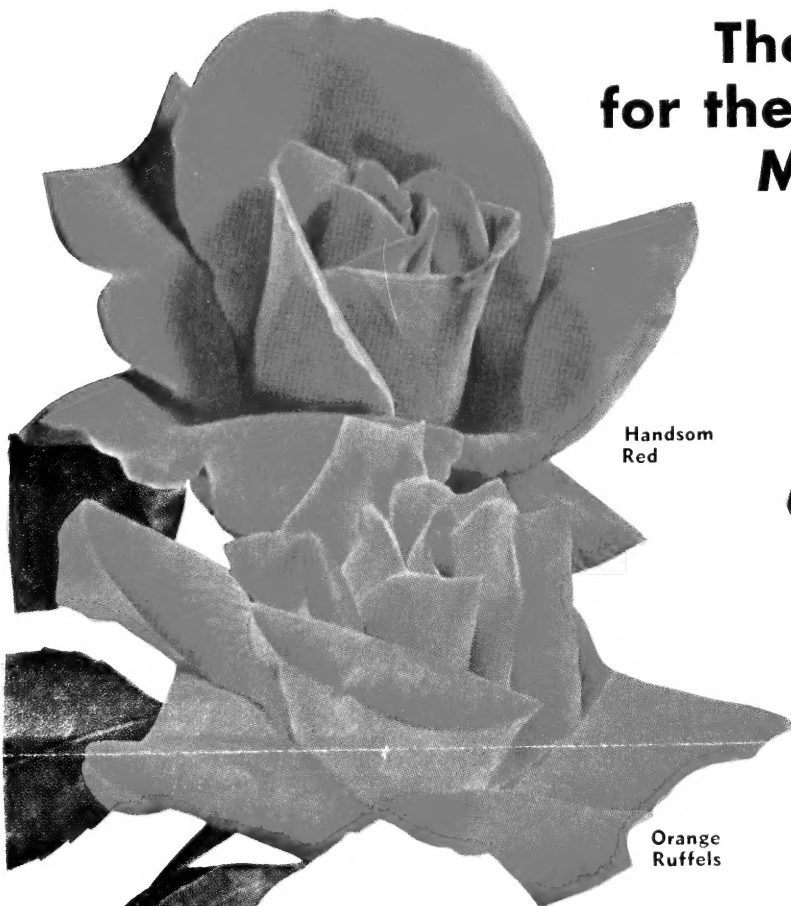

SUB-ZERO

Roses

**The Best -
for the Upper
Midwest**

Helen Hayes

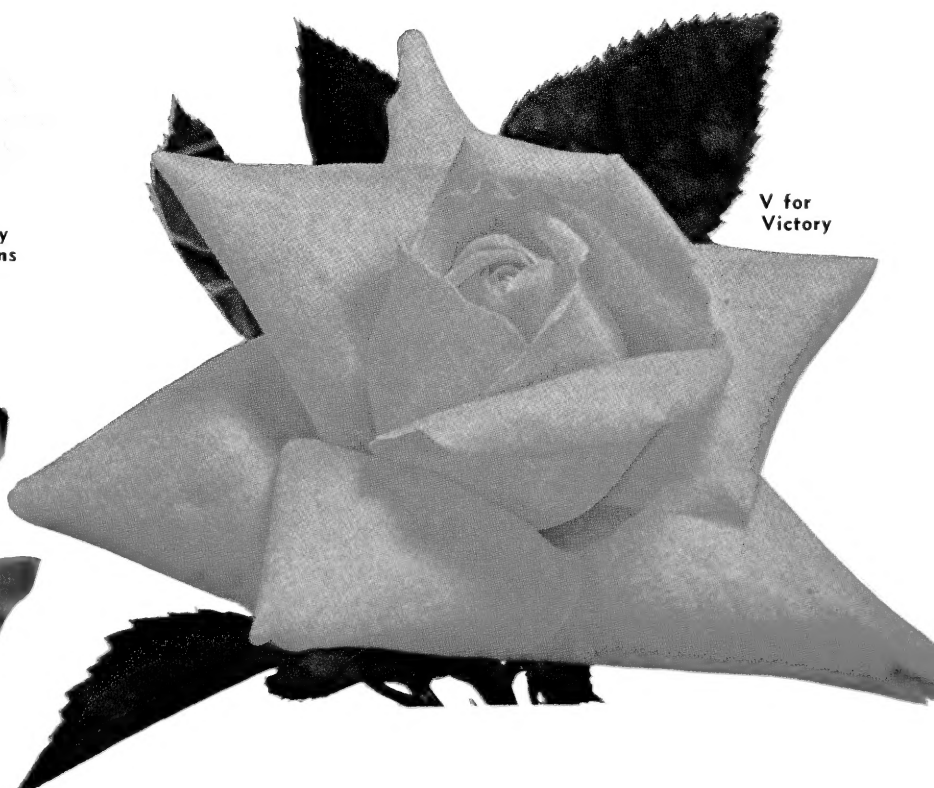

Handsom

Queen O' the Lakes

WHY YOU TOO, SHOULD GROW SUB-ZERO ROSES

Sub-Zero Roses are beautiful, easy to grow—and are the hardest of all Hybrid Tea Roses. This exciting type brings you a new race of Hybrid Tea Roses equal to the best in form and color—but, having been bred back to hardy strains, they possess a great deal more hardiness. For the northern gardener, Sub-Zeros should provide the

CEDRIC ADAMS

(Not pictured.) Named for the Upper Mid-West's favorite radio personality, this magnificent plant carries multitudes of large, completely double, scarlet to carmine Roses. An excellent Rose that everyone should have. Cedric Adams, like all of the Sub-Zero Roses, seems to get better as it gets older. Truly an aristocrat of rosedom. (P.R.R.)

\$1.85 each; 3 for \$5.25

CURLY PINK

One of the most amazing Roses we have ever known. It continues to out-bloom and out-perform any other pink Rose we have seen. Each stem produces from two to five huge, two-toned, lovely pink blossoms forming a gorgeous bouquet on a single stem. We have had reports of over 50 blooms on a single plant at one time. The Rose testers for the American Rose Society rate Curly Pink "Excellent"—and that's just what it is. Hardy, disease resistant, and probably the easiest Hybrid Tea Rose to grow. (P.P. 842).

\$1.85 each; 3 for \$5.25

HANDSOM RED

Well named, this handsome red Rose is a most welcome addition to the Sub-Zero family. It is the brightest red of the group—a glowing shade of bright velvety red. Being new—not many gardeners have this Rose as yet. You'll love it—don't be without it. (P.R.R.)

\$1.85 each; 3 for \$5.25

HELEN HAYES

Named for the first lady of the American Theater and justly so; for the Helen Hayes Rose is also outstanding. This newest Sub-Zero masterpiece is a rhapsody of ever changing color and beauty. The long pointed buds burst open to a sunny yellow, then deepen to a soft coral at the petal tips, and then finally the entire flower is overlaid with a warm glowing pink. Persistently everblooming, bushy, and husky. And the plants are almost thornless! (P.P. 1509.)

\$1.85 each; 3 for \$5.25

RUGOSA ROSES

PRICES: 2-yr., No. 1, field-grown plants, \$1.45 each; 3 for \$3.85; 12 for \$14.50.

For extreme locations where other Roses will not do well, plant these super-hardy Roses—they will not fail. We think of Rugosa Roses as flowering shrubs—and as such they are truly outstanding. Use them in the planting around the house—or as a flowering hedge. You'll be amazed at how beautiful they are. They require no more care than any hardy shrub and their hundreds and hundreds of colorful blooms make them outstanding.

AMELIE GRAVEREAUX

This is the best Rugosa Rose for cutting. The flowers resemble Hybrid Tea Roses in form, as does the plant. The blooms are a rich carmine, double, and are borne on long stems, ideal for cutting. Requires no winter cover—absolutely hardy.

AUSTRIAN COPPER

This husky bush Rose is especially nice used in contrast to the others. Orange-scarlet petals with yellow on the back, give this Rose a lovely coppery tone. Absolutely hardy and dependable.

F. J. GROOTENDORST

A long time favorite, Grootendorst is treasured because of its sturdy, upright habit of growth and its everblooming habit. The small, cherry-red, Carnation-like blooms are borne in clusters that smother the plant when in the peak of blooming season. Hardly without some flowers all summer long. Especially outstanding for hedge plantings because of its upright habit of growth and the fact that it can be easily trimmed to any height desired.

HANSA

An extremely hardy and vigorous everblooming Rose, excellent in group plantings and for 4 to 5 foot hedges. The large, bright crimson blooms are borne abundantly.

SIR THOMAS LIPTON

Pure white, this husky Rose is especially nice when planted with the others.

framework of the Rose garden; although the best of the regular Hybrid Tea Roses should also be included to provide an even wider range of form and color. A good selection of Roses will produce more color and more pleasure over a longer period of time than any other flower that can be grown in this part of the country.

KING BOREAS

Bright yellow, fully double blooms borne in profusion make this lovely Rose one of the very best yellow Floribundas. (P.R.R.)

\$1.85 each; 3 for \$5.25

LILY PONS

The large, graceful flowers of Lily Pons are a glowing white with a soft lemon-yellow shading in the center. Very free flowering, this amazing Rose will produce upwards of a hundred perfectly formed, velvety white blooms each summer. We predict it will be a favorite with you just as it is with us. A real winner! (P.P. 420.)

\$1.85 each; 3 for \$5.25

ORANGE RUFFELS

A shade of orange never before captured in a Rose. This picture does not do it justice. From 40 to 50 petals on a flower gracefully curled and ruffled make this indeed a dazzling Rose as it blends from a lively orange to a saffron-yellow. Blooms heavily all summer long. The almost Holly-like foliage is dark and glossy. The plant is a vigorous grower and is sure to please. (P.P. 1124.)

\$1.85 each; 3 for \$5.25

QUEEN O' THE LAKES

This gorgeous crimson Queen of flowers was named in honor of the reigning Queen of the Minneapolis Aquatennial. One of the best red Roses, this lovely Sub-Zero is completely double, long lasting and prolific. Its grace and form will make it a high spot in your garden. A favorite of ours and of our customers. (P.P. 1003.)

\$1.85 each; 3 for \$5.25

V FOR VICTORY

The large, very double, clear yellow blooms combined with a lovely fragrance distinguish V for Victory. Constantly in bloom, the strong yellow coloring doesn't fade, even in the hottest sun. (P.P. 543.)

\$1.85 each; 3 for \$5.25

CLEMATIS

A favorite of almost everyone. Easier to grow than most people think; they are one of the most colorful of all vines when they explode into bloom with their crisp, vivid flowers. Plant in well drained location and feed well. South exposure not as good as east, north or west.

**Prices: Dormant plants, 98c
Greenhouse grown, \$1.25**

JACKMANI

The most popular of all the large flowered Clematis. Huge velvety, violet-purple flowers.

ERNEST MARKHAM

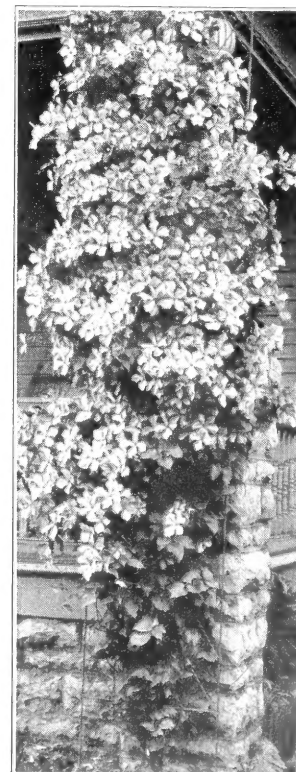

A truly excellent RED Clematis. Medium to large blooms of a live, glowing red.

COUNTESSE DE BOUCHARD

A delicate pinkish rose. This delightful variety produces an abundance of medium-sized flowers which come the closest to clear pink of any variety in its group.

ELSA SPAETH

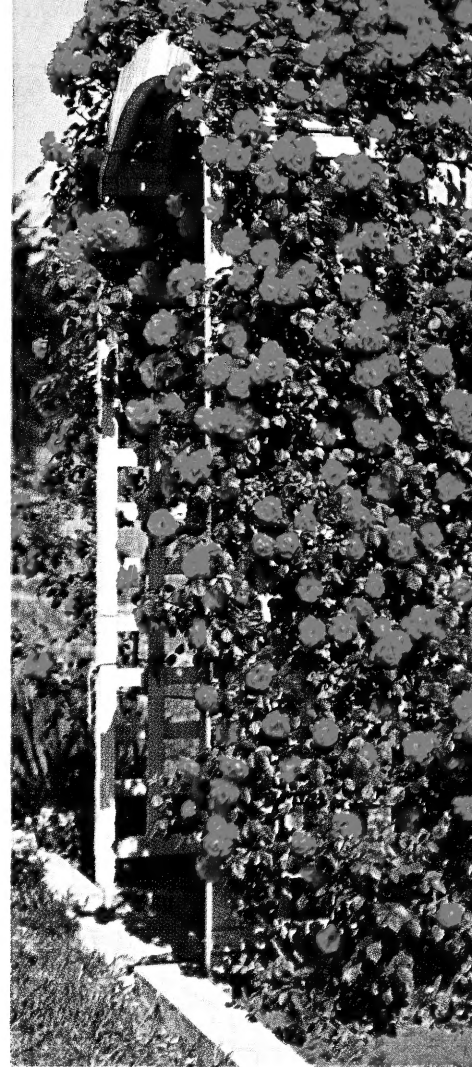

A lovely soft blue with deeper tones toward the center.

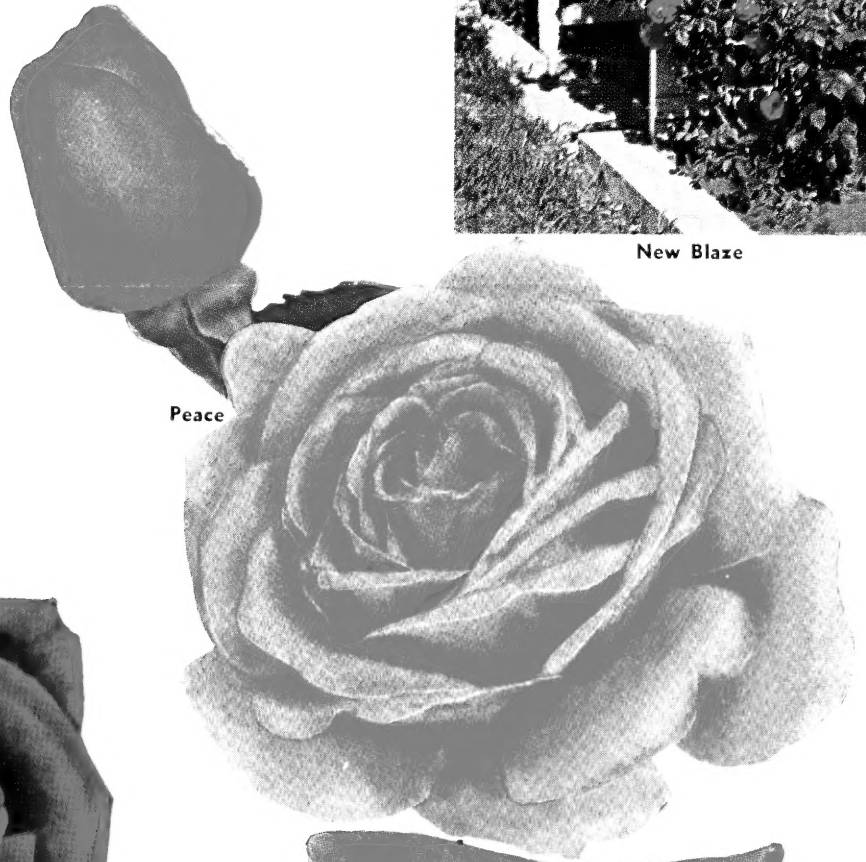

Clematis

Choose For Your Garden From The World's Finest Roses

HYBRID TEA ROSES

We are proud to be able to offer to our customers the world's finest Roses! From the hundreds and hundreds of varieties available, we carefully select those best for this region.

The best varieties, carefully grown and properly stored in our refrigerated Rose storage is your best assurance of success with Roses.

CHRYSLER IMPERIAL RED

An All-America Winner, this deep, rich red Rose with huge, 5- to 6-inch bloom is thought by many to be the greatest of all red Roses. (P.P. 1167.)

\$2.50 each; 3 for \$6.60

NEW YORKER

Brilliant red blooms measuring up to 6½ inches across makes this one of the very best reds. (P.P. 823.)

\$2.50 each; 3 for \$6.60

PRESIDENT EISENHOWER

A very good dark red Rose that has performed beautifully in our Rose garden at Faribault. (P.P. 1217.)

\$2.25 each; 3 for \$6.00

CRIMSON GLORY

An old timer, but still one of the highest rated of all Roses. **69c each**

ETOILE DE HOLLANDE

Large, double, very fragrant, bright red blooms borne on upright stems. **69c each**

CHRISTOPHER STONE

Long, pointed buds open into deep scarlet blooms. **69c each**

KORDES PERFECTA PINK

Voted the outstanding new introduction for 1959 by a test panel of 5000 home gardeners. Basically cream-white, its petals are lined with pink giving the impression of a soft pink Rose. (P.P. 1604.)

\$3.50 each; 3 for \$9.20

JUNO

Huge, sparkling, pink blooms. Highly regarded by Minneapolis Rose Garden as one of the hardiest Hybrid Tea Roses. (P.P. 895.)

\$2.50 each; 3 for \$6.60

SHOW GIRL

This Rose has the longest, most beautiful buds we've ever seen. A deep, deep, rich pink that holds from the bud stage way through the full flower stage. (P.P. 464.)

\$2.25 each; 3 for \$6.00

TIFFANY

The long, pointed buds are a beautiful phlox-pink shaded a golden yellow at the base. Winner of Gold Certificate in International competition. (P.P. 1304.)

\$2.50 each; 3 for \$6.60

PINK PEACE

The famous Peace Rose, but now in pink. Large, 4½- to 6-inch double, very fragrant blooms of a deep, dusty pink. Very lovely. (P.A.F.)

\$3.00 each; 3 for \$7.95

THE DOCTOR

Color is similar to Show Girl, but the form isn't as good. **69c each**

PEACE YELLOW

Acclaimed as the greatest Rose of all time—of any color. It is impossible to show the exquisite beauty of Peace with a single photograph. You'll marvel at the dawn-like range of color through which it passes. From a bud of golden yellow, etched with pink, it turns upon opening to a canary-yellow then to a pale gold and finally to an iridescent cream set off by the apple-blossom-pink edging. The huge, 5- to 6-inch blooms are borne on tall, strong stems. (P.P. 591.)

\$2.50 each; 3 for \$6.60

GOLDEN SCEPTER

Long, tapered, golden buds unfurl into bright, unfading yellow blooms. Rated in the "Top Ten" yellow Roses by the American Rose Society. (P.P. 910.)

\$1.85 each; 3 for \$4.85

SUTTER'S GOLD

Perfect long yellow buds shot with orange. Big golden flowers with more rich fragrance than any other yellow Rose. (P.P. 885.)

\$2.25 each; 3 for \$6.00

ECLIPSE

Long, streamlined buds of rich golden yellow. **69c each**

GOLDEN CHARM

A deep golden yellow. **69c each**

WHITE KNIGHT WHITE

All-America Rose for 1958. First white Hybrid Tea ever accorded this honor. Truly spectacular. Satiny white blossoms borne on long stems ideal for cutting. (P.P. 1359.)

\$3.00 each; 3 for \$7.95

WHITE SWAN

Long, pointed buds open slowly to pure snow-white blooms. (P.P. 1115.)

\$2.50 each; 3 for \$6.60

McGREDY'S IVORY

Large, cream-white and fragrant. **69c each**

MOJAVE ORANGE

All-America Winner for 1954, this gorgeous Rose is getting more popular every year. The long, tapered buds of a glowing, sunset-orange put this Rose in a class by itself. There is nothing else quite like Mojave—don't be without it. (P.P. 1176.)

\$2.75 each; 3 for \$7.20

Glorious Everblooming FLORIBUNDA ROSES

FASHION

Oriental-red buds open to a coral blended with gold. A favorite with everyone here at the nursery. (P.P. 789.) **\$2.00 each; 3 for \$5.25**

FROLIC

The brightest, clearest pink we've seen in a Floribunda. Will grow a good 2 feet tall and is almost continually in bloom. (P.P. 1179.)

\$2.00 each; 3 for \$5.25

GOLD CUP

1958 All-America Winner! Lovely golden yellow that doesn't fade. The outstanding yellow Floribunda. (P.A.F.)

\$2.50 each; 3 for \$6.75

KING BOREAS

Golden yellow buds that are long lasting. Hardy and vigorous. (P.R.R.)

\$1.85 each; 3 for \$5.25

PINOCCHIO

Salmon-pink buds open to clear pink blooms. Not new, but still very popular.

\$1.75 each; 3 for \$4.65

REDCAP

This is the brightest, liveliest red we have ever seen in any Rose. It literally shines! An outstanding Rose. (P.P. 1292.)

\$2.00 each; 3 for \$5.25

RED PINOCCHIO

One of the very best. Buds are a rich carmine taking on a velvety hue as they open. (P.P. 812.)

\$1.75 each; 3 for \$4.65

VOGUE

A glowing cherry-coral color. A favorite of ours—we think you'll prize it too. Spicy fragrance. (P.P. 926.)

\$2.00 each; 3 for \$5.25

WHITE BOUQUET

1957 All-America Winner. Lovely, 4- to 5-inch, Gardenia-like blooms with a sweet, spicy fragrance. (P.P. 1415.)

\$2.50 each; 3 for \$6.60

The New GRANDIFLORA ROSES

Grandiflora is an entirely new type of Rose! A cross between Hybrid Tea and Floribunda Roses, it combines the large, long lasting blooms of the Hybrid Teas with the immense number of the Floribundas. Flowers borne in clusters, but with long stems adequate for cutting. Rugged growers—will get 3 to 4 feet tall.

BUCCANEER

A beautiful, clear, unfading yellow with loads of huge blooms. (P.P. 1119.)

\$2.50 each; 3 for \$6.60

CARROUSEL

Huge, glowing, deep red blooms persist regardless of weather. Tall, husky, disease resistant. (P.P. 1066.)

\$2.00 each; 3 for \$5.25

JUNE BRIDE

The only white Grandiflora. Large, snow-white blooms borne in long stemmed clusters. (P.A.F.)

\$2.50 each; 3 for \$6.75

QUEEN ELIZABETH

First of the new Grandifloras to win All-America Award. One of the loveliest shades of pink we've ever seen—a blending of soft carmine-pink and dawn-rose. Must be classed with the greatest Roses now being grown. (P.P. 1259.)

\$2.50 each; 3 for \$6.60

CLIMBING ROSES

NEW BLAZE

The most popular everblooming red climber. Plant is buried under thousands of scarlet blooms. **75c each; 2 for \$1.40**

GOLDEN SHOWERS

1957 All-America Winner. Blooms from June until late fall. Long, pointed buds of daffodil-yellow—and it's almost thornless. (P.A.F.)

\$2.75 each; 3 for \$7.20

WHITE DAWN

Developed by the University of Minnesota. Blooms all summer long. The snow-white blooms resemble Gardenias from a distance.

\$1.50 each; 3 for \$3.75

CLIMBING DOCTOR

A lovely pink climber—very prolific and fragrant.

75c each; 2 for \$1.40

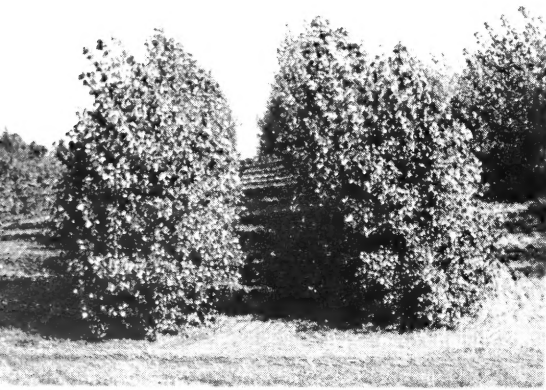

CLIMBING TALISMAN

A gorgeous two-tone combination of red and yellow.

75c each; 2 for \$1.40

Laurel-Leaf Willow—4 years after planting

Norway Poplar—3 years after planting

Farmers! Save FEED, FUEL - and lots of backbreaking shoveling with an Andrews Planned Farmstead Shelterbelt

Are you tired of plowing through snow to get to the barn? Are you tired of shoveling to get your car out of the yard after a heavy snow that has blown and drifted all night? You don't have to, you know. Farmers who have an ANDREWS PLANNED farmstead shelter-belt tell us they wouldn't sell it for 10 times what it cost. More beef, more milk, more eggs are produced, too, when your feed lots and barns are protected from the wind. Farmstead shelterbelts are not really an expense, but an investment that will make your life more pleasant and your stock more productive. Use our FREE shelterbelt planning service. Tell us how much space you have or how many rows (and length of inside ones) you want and we will design a shelterbelt with no obligation to you. It's a service we can give and we want you to have it.

GREEN ASH

Fast growing, hardy and drought resistant. Will grow most any place.

2-3 ft., 25 for \$2.25; 50 for \$3.95; 100 for \$7.25

AMERICAN ELM

Very popular for tall rows in windbreak.

2-3 ft., 25 for \$2.25; 50 for \$3.95; 100 for \$7.25

CHINESE ELM

Grows rapidly even in poor or droughty soil. Don't use where it is too moist.

2-3 ft., 25 for \$2.25; 50 for \$3.95; 100 for \$7.25

NORWAY POPLAR

One of the very best for shelterbelts and windbreaks. Hardy and very fast grower. Also makes good posts and lumber.

5-6 ft., 25 for \$5.95; 50 for \$10.95; 100 for \$17.95

4-5 ft., 25 for \$5.45; 50 for \$9.95; 100 for \$15.95

3-4 ft., 25 for \$4.95; 50 for \$8.95; 100 for \$13.95

ROBUST POPLAR

A hybrid Poplar introduced from Europe and tested extensively by the School of Forestry of the University of Minn. Faster grower, disease resistant, and has very straight grain making it most desirable for lumber. Supply very limited this year.

3-4 ft., 25 for \$5.45; 50 for \$9.95

VILLOSA LILAC

Excellent for the outside rows of windbreak. Very bushy and branches from ground up. Grows 6 to 8 ft. tall.

18-24 in., 25 for \$6.00; 50 for \$11.25; 100 for \$19.75

LAUREL LEAF WILLOW

Ideal for outside rows of windbreak. Bushy grower, hardy and long-lived. A very pretty tree.

4-5 ft., 25 for \$5.45; 50 for \$9.95; 100 for \$15.95

3-4 ft., 25 for \$4.95; 50 for \$8.95; 100 for \$13.95

2-3 ft., 25 for \$4.45; 50 for \$7.95; 100 for \$11.95

18-24 in., 25 for \$3.95; 50 for \$6.95; 100 for \$9.95

New MINNESOTA MUMS

PRAIRIE MOON

1959 introduction. Large, (4-inch), double, creamy white blooms show a gold center when fully open. Plant height is 24 to 30 inches; plant spread about 18 to 24 inches. Begins flowering the first half of September and continues blooming profusely until frost.

85c each; 3 for \$2.25

TONKA

1959 introduction. The large, (3½-inch), fully double, deep yellow flowers are borne on stiff, sturdy stems. An exceptional feature of Tonka is that an open center is never visible in the flower. Plant height is 20 inches; spread, up to 30 inches. Blooms from early September to frost.

85c each; 3 for \$2.25

MINNEHAHA

Minnehaha is a medium tall, upright, bushy plant having salmon colored, rose-tinted, fully double flowers 2½ inches in diameter. It makes a medium tall (20 inches) sturdy plant that starts blossoming about mid-September and continues until killing frost. By the end of September the plant is completely covered with blooms. The plant is almost as wide as it is tall. It should be planted in the middle ground or at the back of the flower border.

75c each; 3 for \$1.95

PRINCESS

Princess is a vigorous growing, high mound type of plant reaching a height of 15 to 18 inches with a spread of 18 to 24 inches. Flowers are double, 2 inches across; color is old rose with gold centers and gold tipped petals which are split at the ends placing it in the Carnation flowered class of Chrysanthemums. Blooming starts early in August and within a few weeks the plant is covered with a prolific display which continues in good condition until freezing weather.

75c each; 3 for \$1.95

MINNPINK

Minnpink is a low, wide spreading, cushion type garden Chrysanthemum. The vigorous plant reaches a width of 2 feet or more and a height of 12 inches when grown in full sun. The clean, fine textured foliage on sturdy stems combine to make an attractive plant throughout the growing season. Foliage is completely hidden by the mass of double, rose-pink blooms which average 1½ to 2 inches in diameter. Blossoming begins about mid-August, reaches a peak in September and continues until hard frost.

75c each; 3 for \$1.95

MINNBRONZE

Minnbronze is a very low, compact, cushion type plant having vivid bronze blooms. Plant height is approximately 9-12 inches and spread is 12-16 inches. The abundant, double flowers are 1½ inches in diameter. Blossoming period starts about mid-September and continues until killing frost. Foliage is fine textured; stems sturdy.

75c each; 3 for \$1.95

Landscape **with EVERGREENS**

Ornamental evergreens have no equal for year around beauty. There is no finer foundation planting than a judicious mixture of the proper kinds of evergreens and flowering shrubs. A modern planting calls for both.

Evergreens are easy to plant, easy to care for, and become more beautiful and majestic year after year as they continue to grow on your grounds.

During the spring planting season, a large number of FARIBAULT GROWN, freshly dug evergreens are on display at the Andrews Garden Center for your selection. Choose your own tree and take it with you. No waiting. There is a wide variety to choose from.

PYRAMIDAL TYPES

This type includes Pyramidal Arborvitae and Upright types of Junipers and Yews.

SPREADING TYPES

This includes the well known and well liked Pfitzer and Savin Junipers, and the Spreading Yew.

GLOBE TYPES

In this class falls the famous Mugho Pine and Globe forms of Arborvitae.

TALL GROWING TYPES

This group includes the Spruce—both Colorado Blue and Black Hills—as well as the tall growing Pines.

RASPBERRIES and BLACKBERRIES

CRIMSON CONE Red Raspberry

This new introduction from the University of Illinois is attracting a lot of attention in Minnesota. The huge, cone-shaped berries are extremely high in flavor; it freezes well, and produces very large crops.

LATHAM Red Raspberry

Latham is still the leading commercial and home garden variety of Red Raspberry. It is vigorous, easy to grow, a heavy producer and hardy enough to stand sub-zero winters. The fruit is large, dark red and firm; picks easily, keeps and ships well. Delicious eaten fresh, in sauce, jam, pies or shortcake.

INDIAN SUMMER—Everbearing Red Raspberry

Claimed by many to be the best flavored of all Red Raspberries. The berries are large, cone-shaped and have a delicious rich Red Raspberry flavor. Wonderful for freezing. Too soft for shipping, we recommend it only as a home garden variety.

SODUS Purple Raspberry

A cross between a Red and a Black Raspberry, SODUS is a tantalizing combination of the best of both kinds. Deliciously flavored, with a flavor unknown in other berries. No garden should be without it.

BLACKHAWK Black Raspberry

This new Black Raspberry was originated by Iowa State College and is the best new introduction in this fruit to come out in many years. Berries are large, many 3/4 inch in diameter; of excellent quality when used fresh, frozen or in jams, pies or sauces. Flavor is sweet to mildly acid. Berries not seedy.

EBONY KING Blackberry

The fruit of Ebony King is very large, jet-black and luscious. Bears better than older varieties.

STRAWBERRIES

Nothing tastes better than sweet, delicious, home-grown Strawberries picked "flavor-fresh" from your own garden—and frozen Strawberries are just as good. Dr. S. A. McCrory, head of the Department of Horticulture of South Dakota State College writes: "The Strawberry is the one fruit South Dakota grows that is equal to citrus fruit in Vitamin C content." Why pay high prices for fruit that is so easy to grow? With Strawberries selling for \$6.00 to \$8.00 per crate, it is smart indeed, to grow your own. Plant a good bed of Strawberries this spring.

POCAHONTAS

A new variety gaining favor by leaps and bounds. A tremendously vigorous variety with huge yields of very attractive bright red fruit. Rated very high for freezing purposes. Pocahontas looks very promising and should be tried extensively in Minnesota.

20th CENTURY—Everbearing

An outstanding everbearer that is highly recommended by experiment stations in many states. The berries are bright red, of fine texture and excellent flavor. We have had reports of 20th Century being the best producer on light, sandy soils.

RED RICH—Everbearing

Unmatched quality has been the hallmark of Red Rich. However, Red Rich seems to prefer heavy soils and must be sprayed for control of cyclamen mite. When these provisions are met, you have a Strawberry that just can't be beat.

SUPERFECTION—Everbearing

Newest everbearer from Michigan. A vigorous grower that will do well most any place. Good producer of uniformly large fruit.

EARLIMORE—1959 U. of Minnesota Introduction

This is an extra early, heavy producing variety with attractive fruit of high quality for eating fresh. The berries are very attractive, bright red, medium in size and firmness, with juicy red flesh, and a delicious, aromatic Strawberry flavor. Fruit maintains its size through the season better than most varieties. Not outstanding for freezing, but is much better than Dunlap or Premier. Earlimore has had enthusiastic praise wherever it has been tested. Commercial growers in the Excelsior area report it is a good money-maker because of its earliness, high yield, attractiveness and superior flavor.

PREMIER

Very dependable old favorite. Blooms late—flowers seldom hurt by frost—yet fruits early.

DUNLAP

Another old reliable that has to be good or it wouldn't have been around so long. Does well most anywhere.

STRAWBERRY PRICES

	25	50	100	250	500	1000
Dunlap	\$1.35	\$1.95	\$ 2.95	\$ 6.00	\$11.00	\$20.00
Premier	1.50	2.25	3.25	6.75	12.50	22.50
Pocahontas	1.85	2.75	4.35	8.95	16.50	30.00
Earlimore	2.95	4.95	7.95	17.50		
Superfection	2.00	3.35	5.25	10.85	19.95	37.50
20th Century	2.50	4.25	7.25	14.75	28.25	50.00
Red Rich	5.00	8.50	15.00	32.50	(12 for \$2.95)	

GRAPES

What could be nicer than a big bunch of sweet, vine-ripened Grapes from your own back yard? Grapes are easy to care for. Plant some along the back fence, or let them climb up a trellis, but don't put off having your own. Plant some this spring.

BETA

A tame Grape with the extra flavor and hardiness of wild Grapes. Excellent for juice and jelly. Needs no winter protection.

CACO

Most popular red Grape. Extra large, rich and sweet. Delicious flavor. Winter cover needed in Minnesota.

CONCORD

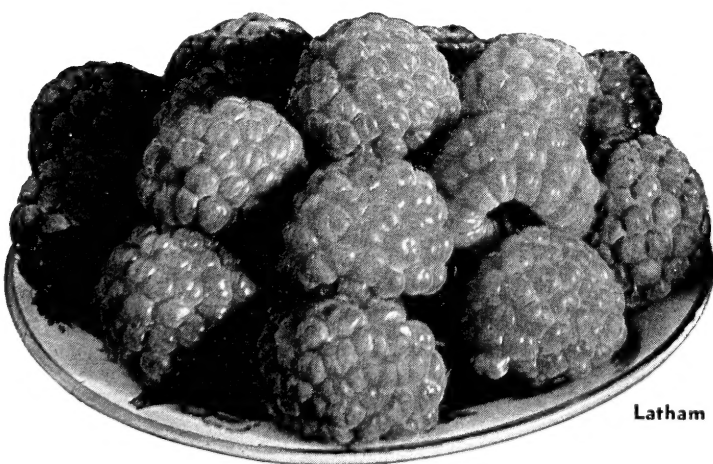

Bears large bunches of sweet, juicy, blue-black Grapes every year. Needs winter cover in Minnesota.

VAN BUREN

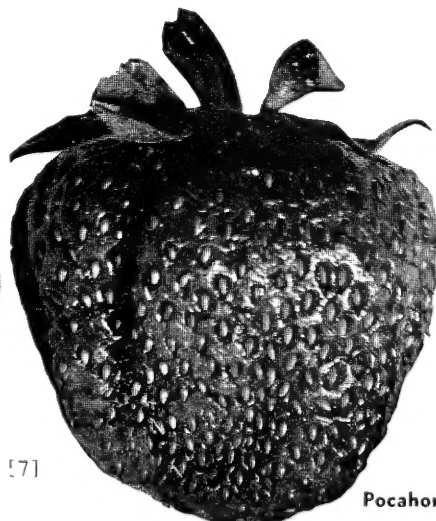

Newest and best of the sweet blue Grapes—and earliest to ripen. We have had reports that Van Buren is as hardy as Beta, but until more evidence is in from a wider area, we are still recommending winter cover in Minnesota. However, it appears that Van Buren is the hardiest of the sweet blue Grapes now commonly grown—and its quality is excellent, better than either Concord or Fredonia.

GRAPE PRICES—All 2-Year, Heavy, Select Vines

	Each	3		Each	3
Beta	\$0.50	\$1.25	Concord	\$0.50	\$1.25
Caco	.50	1.25	Van Buren	.50	1.25

Children Like Apples—and They Are Good for Them. Give Them Plenty

FRUITS FIT FOR A KING (or a Princess) CAN BE GROWN AT HOME

Fresh fruits are expensive, we all know that. In late fall and winter, Apples usually sell for from \$3.50 to \$8.50 per bushel depending upon variety, at wholesale to grocers in Minneapolis. But—for the price of ½ bushel of Apples—or even less—you can buy the best Apple tree available—one that will bear bushels and bushels of Apples every year for many years to come. This is why we say: "Money does grow on trees." Because even the best tree costs so little it pays to buy only northern grown trees that are "built" to live and bear in Minnesota.

The same huge savings can be made by growing your own Raspberries, Strawberries, Cherries, Plums and other fruits. Fresh fruit is one of the best foods for children, and it costs so little to give them all they want when you grow it yourself.

APPLES

The King of fruits is still the most popular with the young set. One of the healthiest fruits, the Apple is just about the easiest to grow. Through the efforts of the Minnesota Fruit Breeding Farm, you can now plant hardy varieties of Apples that, for quality, are second to none grown anywhere in the nation. They're GOOD, and they cost so little when you grow them yourself.

PRICES: 5-6 ft. \$1.95 each; 5 for \$8.75
4-5 ft. \$1.75 each; 5 for \$7.75
(Except as Noted)

Starred varieties (***) were developed and introduced by the University of Minnesota.

SUMMER APPLES

BEACON***

A beautiful, all-red Apple that ripens around State Fair time, good for eating and cooking. A vast improvement over Duchess.

DWARF BEACON***

\$3.75 each

ORIOLE***

Very early—ripening in mid-August. Oriole is of exceptional quality for both eating and cooking. A truly outstanding variety.

FALL APPLES

LAKELAND***

Very similar to Wealthy, but is an annual bearer. With Lakeland you're sure of a full crop every year. Solid, all-over red. Good all around Apple.

WEALTHY

An old favorite. Excellent fall Apple for sauce and pies.

WINTER APPLES

FIRESIDE***

Sweet type eating Apple which we consider far superior to Red Delicious. Flesh remains crisp and juicy longer and has more character.

CONNELL RED (Red Fireside)

Same as Fireside, except it has better color. Fruit is a solid over-all red with the same sweet, zestful flavor.

5-6 ft., \$3.00 each

HARALSON***

We believe Haralson is the best cooking Apple grown—bar none! Absolutely TOPS for pies and excellent for all kinds of cooking. Hard, crisp,

DWARF HARALSON***

\$3.75 each

NORTHWESTERN GREENING

Well known winter cooking Apple. Prized by many for pies.

PRAIRIE SPY***

The perfect "dual purpose" Apple. An outstanding eating Apple, yet better than average for cooking. One of the very best for keeping.

CRAB APPLES

CHESTNUT***

A very tasty Crab for eating, pickling and sauce. Keeps a full month after picking.

WHITNEY

Still a very popular Crab Apple. Fine for eating and pickling, but more perishable than Chestnut.

CURRENTS—GOOSEBERRIES.

PIXWELL GOOSEBERRY

For a good old Gooseberry pie, you just can't beat Pixwell. Easiest to pick of any Gooseberry we know.

2-yr. heavy plants, 95c each; 3 for \$2.50

RED LAKE CURRANT***

A product of the University of Minnesota, Red Lake is the best red Currant being grown today. 2-yr. heavy plants, 65c each; 3 for \$1.75

TASTY PEARS

Are you thirsty for a Pear? Yes, Pears can be grown in Minnesota—and just as easily as Apples. Below are listed three of the best. (Note: Parker and Patten are not self-fertile and should be planted together to insure a set of fruit.)

PARKER***

This juicy, high quality Pear introduced by the University of Minnesota is excellent for eating fresh and for sauce.

5-6 ft., \$2.25; 3-4 ft., \$1.35; 3-5 ft. whips, \$1.00

PATTEN

Resembles a Bartlett—has very good quality for both eating and sauce. Tree is a husky, upright grower.

5-6 ft., \$2.25; 4-5 ft., \$1.75; 4-6 ft. whips, \$1.35

TOPPER

The most amazing Pear we've ever seen. Found as a seedling growing in St. Paul. Tree has proved to be hardy and vigorous. Appears to be self-fertile, meaning it can be planted alone and still set fruit. Fruit is large, juicy, and of excellent quality. Plant Topper this year and you'll be amazed how soon you'll have loads of the tastiest Pears you've ever seen.

4-6 ft. whips, \$2.25

PIE CHERRIES

Minnesota can now raise the finest Pie Cherries in the entire country. Our new varieties actually exceed in quality and color the Pie Cherries grown in Wisconsin, Michigan and other Cherry growing areas. These trees are self-fertile, so will fruit even if planted alone.

METEOR***

Outstanding quality. Large, juicy Cherries ripening in midseason. As tree size is somewhat larger than Northstar, we recommend Meteor for farm orchards.

4-5 ft., \$2.65

NORTHSTAR***

The juicy, dark red fruits of Northstar make an unbelievably good Cherry pie. Dwarf tree size makes Northstar excellent for the city lot.

3-4 ft., \$2.65

PLUMS

PIPESTONE***

Picked ripe from the tree, these huge, juicy red Plums will beat anything you ever bought at the store.

5-6 ft., \$1.95; 4-5 ft., \$1.75

SUPERIOR***

Huge and sweet. It peels like a Peach. Tree smaller than Pipestone, perhaps better suited where space is limited.

5-6 ft., \$1.95; 4-5 ft., \$1.75

TOKA

Best of all for jam, and a good pollenizer for Pipestone and Superior.

5-6 ft., \$1.95; 4-5 ft., \$1.75

MT. ROYAL BLUE PLUM

Considered by many to be the highest quality Plum grown for canning purposes. A "must" for every home orchard. Self-fertile—can be planted alone.

4-5 ft., \$2.25

STANLEY PRUNE

You'll not be able to tell Stanley from the shipped in Italian Prune. Excellent for sauce and jam. Tree shapely and long-lived.

5-6 ft., \$2.25; 4-5 ft., \$1.95

CHERRY-PLUM HYBRIDS

SAPALTA

Large, juicy and meaty. Purple flesh—wonderful for canning and eating fresh.

4-5 ft., \$1.75

COMPASS

Excellent pollenizer for Sapalta.

4-5 ft., \$1.75

HANSEN'S BUSH CHERRY

Dwarf. Good for preserves, and an excellent pollenizer for Sapalta.

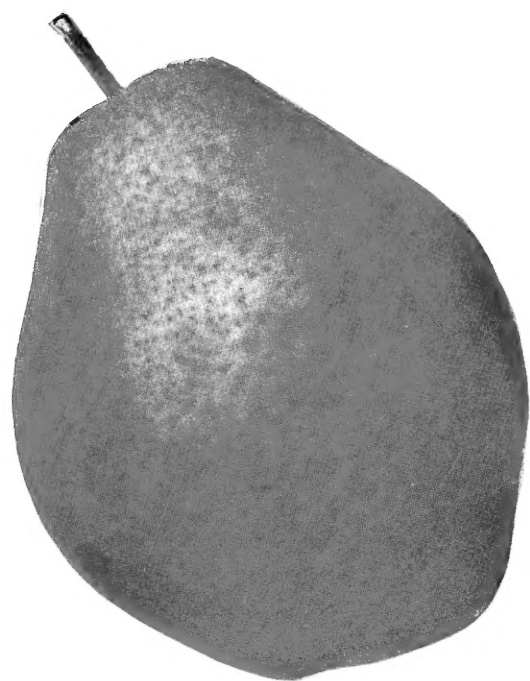

2-3 ft., 89c

RHUBARB

CANADA RED RHUBARB

The reddest Rhubarb to come from Canada. Excellent quality.

Flowering Shrubs for Every Location

SHRUBS THAT PREFER SUNNY LOCATIONS

Size Code: (L)—Low; (M)—Medium; (T)—Tall

RED LEAF BARBERRY (L)

Deep red leaves that last throughout the summer. Mature height is 2 to 3 feet. 12-18 in., 75c

BLUE MIST SPIREA (Caryopteris) (L)

Dwarf, (2-3 ft.) fall blooming shrub smothered in misty blue blooms from August until frost. Attracts humming birds. No. 1, 75c

DWARF CRANBERRY (L)

One of the very best dwarf shrubs. Grows only 2-2½ ft. tall. Forms solid, compact ball of most attractive Maple-like leaves. 9-12 in., \$2.25; 6-9 in., \$1.50

HIGHBUSH CRANBERRY (T)

Richly colored foliage. White blossoms are followed by bright red fruit in September. Tolerates wet soil. Use in shrub border. 2-3 ft., \$1.35; 18-24 in., \$1.15

DEUTZIA, LEMOINE (L)

A neat bushy shrub that carries sparkling white blooms. Excellent for foundation plantings. 18-24 in., \$1.10

CLAVEY'S DWARF HONEYSUCKLE (L)

A small, compact shrub with gray-green foliage. One of the best dwarf shrubs. Bright yellow flowers borne in May. 18-24 in., \$1.00; 15-18 in., 85c

ZABELI HONEYSUCKLE (T)

Reddest flowers of all the Honeysuckles. A beautiful grower. 2-3 ft., \$1.00

HYDRANGEA P.G. (L)

Huge white blooms that turn coppery pink in late summer. Very popular. 18-24 in., \$1.00

GOLDEN MOCKORANGE (L)

The bright yellow leaves of the shrub make it very popular. A mass of sweet-scented, white blooms in May and June. Seldom gets more than 4 ft. tall. 18-24 in., \$2.25; 15-18 in., \$1.95

POTENTILLA, WOODLAND GOLD (L)

Clear, bright yellow flowers. Plant is small (2-3 ft.) and very compact. Excellent foundation shrub. 12-18 in., \$1.25

RED FLASH (M)

Red leaves all summer long. Beautiful when used with Golden Mock-orange or Russian Olive. 2-3 ft., \$1.75; 18-24 in., \$1.25

ROSE TREE OF CHINA (M)

Brilliant double pink blooms smother the plant in the spring. 2-3 ft., \$1.75; 18-24 in., \$1.25

SPIREA, ANTHONY WATERER (L)

Seldom grows larger than 2 ft. Bright red flowers cloak the entire plant in June-July. 18-24 in., \$1.25

SPIREA, FROEBELI (L)

Similar to Spirea, Anthony Waterer but grows a little larger. Leaves turn a delightful plum-red in fall. 18-24 in., 75c

SPIREA, SNOWGARLAND (L)

Masses of white blooms and lacy, light green leaves distinguish this Spirea. Bushier than Bridal Wreath. 2-3 ft., \$1.35; 18-24 in., \$1.00

WAYFARING BUSH (Viburnum lantana) (T)

Foliage is very attractive—a silvery green turning red in fall. A good border shrub. 2-3 ft., \$1.25

Glamorous LILACS

FRENCH LILACS

Have been developed into a wide variety of colors. They are long-lived, do not spread, and become more beautiful year after year.

Alphonse Lavalle. Double, violet blooms.

Charles Joly. A beautiful, double, dark red.

Katherine Havemeyer. Huge spikes of lively, double pink blooms.

Ludwig Spaeth. A rich purple. Very popular.

Mme. Lemoine. Double, snow-white blooms borne in profusion.

PRICES: 18-24 in., \$1.40; 3 for \$3.45.

CHINESE LILAC

An improved variety often called the "Red Persian Lilac." An excellent plant that branches heavily from the ground up. Soft reddish pink blooms. Very desirable for shrub borders and hedges. 18-24 in., 75c

VILLOSA LILAC

Called the "Summer Lilac" as it blooms after all other Lilacs are through. Blooms are of a light pink. Plant is husky, a fast grower, and branches well from ground up. Excellent as specimen shrub, for screens, windbreaks and hedges. 2-3 ft., \$1.25

HARDY HEDGES

Zabeli Honeysuckle (T)	12-18 in.	25	50	100
Dwarf Ninebark (L)	12-18 in.	\$7.50	\$13.95	\$24.50
Villosa Lilac (T)	18-24 in.	6.75	12.65	22.50
Bridal Wreath (M)	2-3 ft.	6.00	11.25	19.75
		6.00	11.25	19.75

SHRUBS THAT ARE EQUALLY GOOD IN SUN OR SHADE

ARROWWOOD (Viburnum dentatum) (T)

Dark green leaves turn bright red in fall. Small berries are valued by song birds. Very tolerant of shade. 18-24 in., \$1.00; 12-18 in., 75c

BURNING BUSH (Euonymus alatus) (M)

We consider this to be among the 5 best shrubs for Minnesota. Compact shrub with good foliage and form. Leaves are a glossy green, but turn to a brilliant scarlet in fall. Branches have corky wings that add to its winter value. 18-24 in., \$1.75

DWARF BURNING BUSH (L)

Dwarf form of this excellent shrub. 18-24 in., \$1.95

CORALBERRY (L)

A delightful dwarf shrub, ideal for foundation plantings. Dainty pink flowers appearing in mid-July are followed by small, attractive red berries. 18-24 in., 95c

COTONEASTER (M)

Deep, glossy green leaves that turn bright red in fall. Widely used in foundation plantings. 2-3 ft., \$1.00; 18-24 in., 75c

ALPINE CURRANT (L)

A very useful landscape shrub—one of our "Top 5". Compact, upright habit of growth, but small, thereby being useful in foundation planting. Top height about 4 ft. Very tolerant of shade. 15-18 in., \$1.25; 12-15 in., \$1.00

RED DOGWOOD (M)

Red stems make this a most showy shrub during winter months. One of the best for shady spots. 2-3 ft., \$1.25

PAGODA DOGWOOD (T)

Very attractive shrub best suited for background plantings. Horizontally spreading branches. 3-4 ft., \$1.25; 2-3 ft., \$1.10

VARIEGATED DOGWOOD (M)

Green leaves, but with creamy white edging. Goes beautifully with other shrubs and the Japanese Yew. 2-3 ft., \$1.95; 18-24 in., \$1.35

HYDRANGEA, HILLS OF SNOW (L)

Huge white blooms resemble snowballs. Very tolerant of shade and moist soil. 18-24 in., \$1.00

DWARF NINEBARK (L)

Compact, dwarf shrub, grows anywhere. Rich green foliage. 3-4 ft., \$1.25; 2-3 ft., 95c

SPIREA, V. H. (Bridal Wreath) (M)

This favorite seems to grow and bloom most any place. 2-3 ft., 65c

FLOWERING CRABS

ALMEY

Fiery crimson flowers, brightest of all the Flowering Crabs. Each bloom as big as a silver dollar! 5-6 ft., \$3.25

HOPA

Blood-red buds are followed by a mass of fragrant, deep rose colored blossoms. 5-6 ft., \$2.95; 4-5 ft., \$2.25

KLEHM'S IMPROVED BECHTEL'S

Double, pink flowers with about 20 petals, resemble miniature Roses. Blooms after all others are through. Very beautiful. 5-6 ft., \$3.25; 4-5 ft., \$2.95

RADIANT

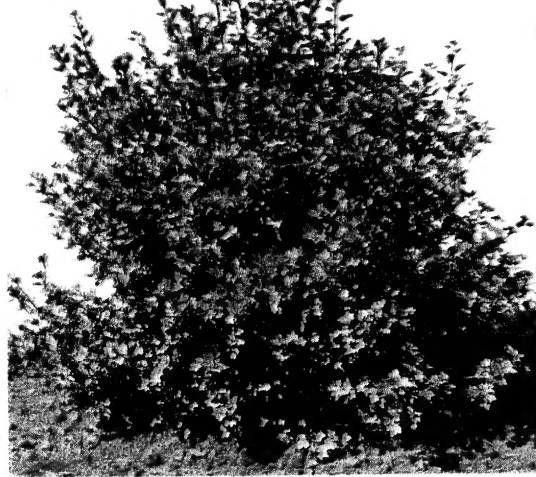

New, 1958 introduction of the University of Minnesota. A blaze of radiant pink bloom in the spring is followed in the fall with thousands of small, cardinal-red fruits that cling to the tree throughout the winter. Unusually attractive in both spring and fall. A very shapely tree—compact and husky. 5-6 ft., \$3.75; 4-5 ft., \$3.45

STRATHMORE

New! A Pyramidal Flowering Crab that resembles a Lombardy Poplar in outline. Dark pink blooms. Leaves come out a bright red and deepen to a rich maroon. Very striking. 5-6 ft., \$3.25; 4-5 ft., \$2.95; 3-4 ft., \$2.45

How YOU BENEFIT from Our 87 YEARS of EXPERIENCE

1. At Andrews you get the advice and guidance of active nurserymen—folks who have spent their entire lives in the nursery business. The Andrews Garden Center is the oldest and most complete Garden Center in Faribault.

2. At Andrews you get locally grown trees, shrubs, and evergreens. You can always expect more from Minnesota grown nursery stock.

3. You can count on Andrews to always have the best in gardening aids such as fertilizers, sprays, and tools. Being growers, we get a chance to try them all—and offer only best brands to you.

4. And finally—at Andrews the price is always right. The best values in nursery stock are always found at Andrews.

Free!

With every purchase at Andrews you receive valuable plants as gifts! Some of the things we give are:

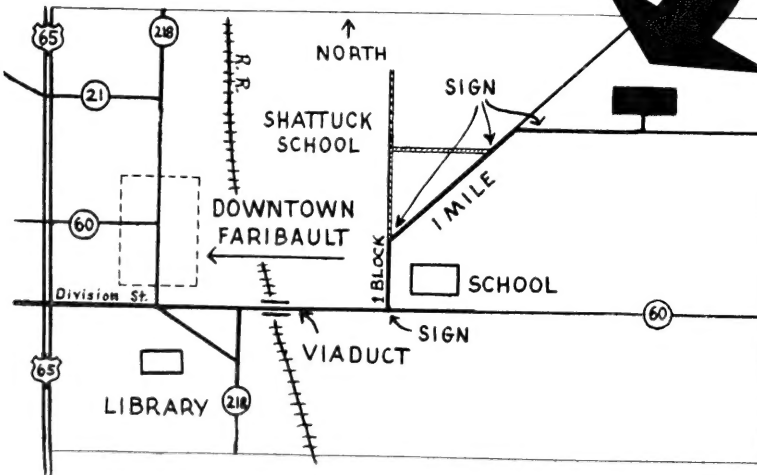

Roses
Bulbs
Grapes
Seeds

Shrubs
Raspberries
Perennials

Do your garden shopping at Andrews and get your plants direct from the grower plus valuable gift plants.

ANDREWS NURSERY

"If You Don't Know Nursery Stock—
Know Your Nurseryman"

HOW TO GET TO ANDREWS' GARDEN CENTER

1. Coming from the North on Highway 65:
Cross intersection with highway 60 (traffic lights at this intersection) and turn left at second intersection (Division Street). Proceed through town on this street, cross viaduct, turn left at school corner and follow signs to nursery.
2. Coming from South on Highway 65:
Turn right at first intersection upon entering city (Division Street). Proceed through town on this street, cross viaduct, turn left at school corner and follow signs to nursery.
3. Coming from North on Highway 218:
Drive straight through town on 218 (Central Ave.) to library, turn left, cross viaduct, turn left again at school corner and follow signs to nursery.
4. Coming from South on Highway 218:
Turn right at intersection with Highway 60, cross viaduct, turn left at school corner and follow signs to nursery.
5. Coming from East on Highway 60:
Turn right at school corner and follow signs to nursery.
6. Coming from West on Highway 60:
Turn right on Highway 218, drive south to second intersection (Division Street). Proceed through town on this street, cross viaduct, turn left at school corner and follow signs to nursery.
